PROVIDERS PRACTICING AT THIS FACILITY

Instructions: List below all licensed health care providers (MD, DO, NP, PA, pharmacist) at your facility who have prescribing authority.

Provider Name	Title (MD, DO)	License No.	Medicaid or NPI No.	EIN (Optional)

PROVIDER AGREEMENT

To receive publicly funded vaccines at no cost, I agree to the following conditions, on behalf of myself and all the practitioners, nurses, and others associated with the health care facility of which I am the medical director or equivalent:

1.	I will annually submit a provider profile representing populations served by my practice/facility. I will submit more frequently if 1) the number of children served changes or 2) the status of the facility changes during the calendar year.
2.	<p>I will screen patients and document VFC eligibility status at each immunization encounter (i.e., federal or state vaccine-eligible) and administer VFC-purchased vaccine by such category only to children who are 18 years of age or younger who meet one or more of the following categories:</p> <p>A. Children through 18 years of age who meet at least one of the following criteria are eligible to receive VFC vaccine:</p> <ol style="list-style-type: none"> 1. Are Medicaid-eligible: A child who is eligible for the Medicaid Program. For the purpose of the VFC program, the terms “Medicaid-eligible” and “Medicaid enrolled” are used interchangeably and refer to children who have health insurance covered by a state Medicaid program; 2. Uninsured: A child who has no health insurance coverage; 3. American Indian or Alaska Native (AI/AN): As defined by the Indian Health Care Improvement Act (25 U.S.C. 1603); 4. Underinsured: <ol style="list-style-type: none"> a) A child who has health insurance, but the coverage does not include vaccines; or b) A child whose insurance does not cover all Advisory Committee on Immunization Practices (ACIP) recommended vaccines. The child would be eligible to receive those vaccines not covered by the insurance. Underinsured children are eligible to receive VFC vaccine only through a Federally Qualified Health Center (FQHC), or Rural Health Clinic (RHC) or under an approved deputization agreement. <p>B. State Vaccine-eligible Children</p> <ol style="list-style-type: none"> 1. In addition, to the extent that my state designates additional categories of children as “state vaccine-eligible,” I will screen for such eligibility as listed in the addendum to this agreement and will administer state-funded doses (including 317-funded doses) to such children. <p>Children aged 0 through 18 years that do not meet one or more of the federal eligibility vaccine categories (VFC-eligible), are not eligible to receive VFC-purchased vaccine.</p>
3.	<p>For the vaccines identified and agreed upon in the provider profile, I will comply with immunization schedules, dosages, and contraindications that are established by the Advisory Committee on Immunization Practices (ACIP) and included in the VFC program unless:</p> <ol style="list-style-type: none"> a) In the provider's medical judgment, and in accordance with accepted medical practice, the provider deems such compliance to be medically inappropriate <u>for the child</u>; b) The particular requirements contradict state law, including laws pertaining to religious and other exemptions.
4.	I will maintain all records related to the VFC program for a minimum of three (3) years and upon request make these records available for review. VFC records include, but are not limited to, VFC screening and eligibility documentation, billing records, medical records that verify receipt of vaccine, vaccine ordering records, vaccine storage temperature data, and vaccine purchase and accountability records.
5.	I will immunize eligible children with publicly supplied vaccine at no charge to the patient for the vaccine.

6.	I will not charge a vaccine administration fee to non-Medicaid federal vaccine eligible children that exceeds the administration fee cap of \$22.57 per vaccine dose. For Medicaid children, I will accept the reimbursement for immunization administration set by the state Medicaid agency or the contracted Medicaid health plans.
7.	I will not deny administration of a publicly purchased vaccine to an established patient because the child's parent/guardian/individual of record is unable to pay the administration fee.
8.	I will distribute the current Vaccine Information Statements (VIS) each time a vaccine is administered and maintain records in accordance with the National Childhood Vaccine Injury Act (NCVIA), which includes reporting clinically significant adverse events to the Vaccine Adverse Event Reporting System (VAERS).
9.	I will comply with the requirements for vaccine management and accountability including: <ul style="list-style-type: none"> a) Ordering vaccine and maintaining appropriate vaccine inventories; b) Not storing vaccine in dormitory-style units at any time; c) Storing vaccine under proper storage conditions at all times. Refrigerator and freezer vaccine storage units and temperature monitoring equipment and practices must meet Nevada State Immunization Program storage and handling requirements; d) Returning all spoiled/expired public vaccines to CDC's centralized vaccine distributor within six (6) months of spoilage/expiration.
10.	I agree to operate within the VFC program in a manner intended to avoid fraud and abuse. Consistent with "fraud" and "abuse" as defined in the Medicaid regulations at 42 CFR § 455.2, and for the purposes of the VFC program: <p>Fraud: is an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable federal or state law.</p> <p>Abuse: provider practices that are inconsistent with sound fiscal, business, or medical practices and result in an unnecessary cost to the Medicaid program, (and/or including actions that result in an unnecessary cost to the immunization program, a health insurance company, or a patient); or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. Abuse also includes recipient practices that result in unnecessary cost to the Medicaid program.</p>
11.	I will participate in VFC program compliance site visits including unannounced Storage and Handling visits and other educational opportunities (e.g., AFIX visits) associated with VFC program requirements.
12.	For pharmacies, urgent care, or school located vaccine clinics, I agree to: <ul style="list-style-type: none"> a) Vaccinate all "walk-in" VFC-eligible children, and b) Will not refuse to vaccinate VFC-eligible children based on a parent's inability to pay the administration fee. <p>Note: "Walk-in" refers to any VFC eligible child who presents requesting a vaccine; not just established patients. "Walk-in" does not mean that a provider must serve VFC patients without an appointment. If a provider's office policy is for all patients to make an appointment to receive immunizations then the policy would apply to VFC patients as well.</p>
13.	I agree to replace vaccines purchased with state or federal funds (VFC, 317) that are deemed non-viable due to provider negligence on a <u>dose-for-dose</u> basis.

14.	<p>For providers with a signed deputization Memorandum of Understanding (MOU) between a FQHC or RHC and the Nevada State Immunization Program to serve underinsured VFC-eligible children, I agree to:</p> <ul style="list-style-type: none"> a) Include “underinsured” as a VFC eligibility category during the patient’s screening for VFC eligibility at every visit; b) Vaccinate “walk-in” VFC-eligible underinsured children; and c) Report required usage data <p>Note: “Walk-in” refers to any underinsured child who presents requesting a vaccine; not just established patients. “Walk-in” does not mean that a provider must serve underinsured patients without an appointment. If a provider’s office policy is for all patients to make an appointment to receive immunizations then the policy would apply to underinsured patients as well.</p>
15.	<p>I will record all vaccines that our office administers to children and adults into Nevada’s immunization information system (NV WebIZ) unless the patient has chosen to not participate. In order for a patient to opt-out of NV WebIZ, a form must be completed and sent to the NV WebIZ Help Desk. Providers with an undue hardship (i.e., no internet access) can comply by completing a NV WebIZ paper reporting form and mailing to the NV WebIZ Program. Please contact the NV WebIZ Help Desk for this form. These requirements are in reference to Nevada Revised Statutes (NRS) 439.265 and corresponding Nevada Administrative Code (NAC) R094-09A. View these laws at:</p> <ul style="list-style-type: none"> o NRS: www.leg.state.nv.us/NRS/NRS-439.html#NRS439Sec265 o NAC: : http://www.leg.state.nv.us/NAC/NAC-439.html#NAC439Sec870 o WebIZ: http://dpbh.nv.gov/Programs/WebIZ/WebIZ - Home/
16.	<p>I understand this facility or the Nevada State Immunization Program may terminate this agreement at any time. If I choose to terminate this agreement, then I will properly return any unused federal vaccine as well as any equipment provided to the facility as directed by the Nevada State Immunization Program.</p>

<p>By signing this form, I certify on behalf of myself and all immunization providers in this facility that I have read and agree to the Vaccines for Children Program enrollment requirements listed above and understand that I am accountable (and each listed provider is individually accountable) for compliance with these requirements.</p>

PROVIDER POPULATION

Provider Population is based on patients seen during the previous 12 months. Report the number of children who received vaccinations at your facility, by age group. Only count a child once based on their status at the last immunization visit, regardless of the number of visits made. The following table documents how many children received VFC vaccine, by category, and how many received non-VFC vaccine.

VFC Vaccine Eligibility Categories	# of children who received VFC Vaccine by Age Category			
	<1 Year	1-6 Years	7-18 Years	Total
Enrolled in Medicaid				
No Health Insurance				
American Indian/Alaska Native				
Underinsured in FQHC/RHC or Deputized Facility ¹				
Total VFC:				
Non-VFC Vaccine Eligibility Categories	# of children who received non-VFC Vaccine by Age Category			
	<1 Year	1-6 Years	7-18 Years	Total
Insured (health insurance covers vaccines)				
Other Underinsured ²				
Children's Health Insurance Program (NV Check-Up) ³				
Total Non-VFC:				
Total Patients (must equal sum of Total VFC + Total Non-VFC)				

¹Underinsured includes children with health insurance that does not include vaccines, caps vaccine coverage or only covers specific vaccine types. Children are only eligible for VFC-funded vaccines that are not covered by insurance. In addition, to receive VFC vaccine, underinsured children must be vaccinated through a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) or under an approved deputized provider. The deputized provider must have a written agreement with an FQHC/RHC and the Nevada State Immunization Program in order to vaccinate these underinsured children.

²Other underinsured are children that are underinsured but are not eligible to receive federal vaccine through the VFC program because the provider or facility is not a FQHC/RHC or a deputized provider. However, these children may be served if vaccines are provided by the state program to cover these non-VFC eligible children.

³CHIP – Children enrolled in the State Children's Health Insurance Program (NV Check-Up). These children are considered insured and are not eligible for vaccines through the VFC program. Each state provides specific guidance on how CHIP vaccine is purchased and administered.
